Address:		
Phone:	Email Address:	
Medicare Card Number:	Medicare Reference Number:	Concession/Pension Card:

SERVICES REQUESTED

Item 12306 One service only in a 24 month period

- Confirmation of a presumptive diagnosis of low bone mineral density made on the basis of one or more fractures occurring after minimal trauma.
- Monitoring of low bone mineral density proved by previous bone densitometry. (Low BMD is present when BMD >2.5 SD below young normal mean or >1.5 SD below age-matched mean)

Item 12312 One service only in a 12 month period

- Prolonged glucocorticoid therapy
- Conditions associated with excess glucocorticoid secretion
- Male hypogonadism
- Female hypogonadism lasting more than 6 months before age 45 years

TO BE USED ONLY IF NO OTHER BMD ITEM NUMBER APPLIES. FOR PATIENTS 70 YEARS OR OVER.

Item 12320 Restricted to once only in a 5 year period

- The patient has not previously had a BD, or
- Has had previous BMD showing T-score of -1.5 or above

ROUTINE BMD MEASUREMENT

- Includes all other indications. No Medicare benefit applicable.
Our normal fee applies.

Item 12315 One service only in a 24 month period

- Primary hyperparathyroidism
- Chronic liver disease
- Chronic renal disease
- Proven malabsorptive disease
- Rheumatoid arthritis
- Conditions associated with thyroxine excess

Item 12321 One service only in a 12 month period

- Measurement of BMD 12 months following a significant change in therapy for established low bone mineral density. (Change in class of drugs rather than change in dose regime).

Item 12322 Restricted to once only in a 2 year period

- Has had previous BMD showing T-score lower than -1.5 but more than -2.5.
